

Floriculture

Purpose

The National FFA Floriculture Career Development Event is designed to create an interest in career preparation for all current and future aspects of the floriculture industry through leadership development and hands on technical skill development using industry standards that are delivered through the agricultural education curriculum.

Floriculture is a discipline of horticulture concerned with the cultivation of flowering and ornamental plants for gardens and the floral industry.

The floriculture industry encompasses the following areas:

- Greenhouse and field production and management.
- Garden center and floral shop management.
- Floral design and management.

Objectives

- Identify plants, plant materials, supplies and equipment utilized in the floriculture industry.
- Demonstrate an understanding of the biological and scientific principles of plant growth and development. Develop the skills underlying propagation, variety development, growth requirements, growing techniques, harvesting, marketing and maintenance of established floriculture plants.
- Identify and recommend solutions for plant disorders.
- Demonstrate the use of elements and principles of design and develop related skills.
- Evaluate marketable floral products for quality and cultural perfection for use in the retail floral industry.
- Identify, select, operate and maintain appropriate supplies and equipment for floriculture production, design and marketing.
- Demonstrate the use of safety procedures and practices in floriculture operations.
- Understand the operation, management and maintenance of facilities for floriculture operations.
- Demonstrate interpersonal skills necessary for successful employment in the floriculture industry.
- Demonstrate proper sales and customer service skills.
- Demonstrate general business practices appropriate to the floriculture industry.
- Effectively work together as a team.

Event Rules

The complete rules, policies and procedures relevant to all National FFA Career and Leadership Development Events may be found in the <u>Guide to CDE and LDE Policies and Procedures</u>.

Each team will be comprised of four members.

- All four scores will be used to determine the total team score.
- It is highly recommended that participants wear FFA Official Dress for this event. Participants may also bring an apron and/or a tool belt and towels.
- Under no circumstances will any participant be allowed to touch or handle plant material during the event except when instructed by the event staff.
- Any communication between participants during the event will be sufficient cause to eliminate the team from the event. The exception to this is the team activity.
- Any participant caught cheating during the event will be expelled from the event.
- All participants are expected to be prompt at their stations throughout the event. No provision will be made for tardiness, which will in most cases cause the late participant to lose event points.
- The event superintendent will assign the participants to group leaders who will escort them to various event staging sites. Participants must know their participant number and stay in their assigned group at all times or until told to change leaders by the event superintendent.
- Any assistance given to a participant from any source during the event, other than a floriculture official, will be sufficient cause to eliminate the team from the event.
- All participants will be given an identification number by which they will be designated throughout the event.
- Various computer applications may be utilized throughout the floriculture event.
- Any participant in possession of an electronic and/or communication device in the event area is subject to disqualification.

Event Format

MATERIALS STUDENTS NEED TO PROVIDE:

- Clean clipboard, free of notes.
- Two sharpened No. 2 pencils.
- Prepared resume.
- Completed Job Application, blank applications will be provided at the team orientation meeting.
- Floral cutters/clippers.
- Ribbon shears.
- Wire cutters.
- Calculator Should be battery operated, non-programmable and nonscientific (basic five function only). No other calculators can be used during the event.
- All references to time limits are approximate. The committee reserves the right to adjust to the practicum and anticipated skill of the students

TEAM ACTIVITY (800 POINTS)

Each team will perform an assignment routinely performed in some phase of the floriculture industry that requires teamwork. These tasks will be described in situational terms for presentation to each team. Forty five minutes will be allowed for completing the activity. If a presentation to the judges is required, the presentation portion of the event will take place after the 45 minute time period has ended. Presentation times may vary depending on the assigned task but will not exceed 10 minutes. There will be an additional time allowed after judging is complete for team clean up. All materials, with the exception of floral tools, needed to complete the assignment will be provided. The type of activity and information about the specific tasks will be announced at the beginning of the practicum by the event assistant in charge.

The type of assignments that may be used in this phase of the event include, but are not limited to, the following:

- Prepare floral products for an event.
- Prepare and pack floral products for shipping and updating inventory.
- Create a floral product display.
- Create a greenhouse production and task schedule to meet the needs of a given customer.
- Prepare and display plant material found in a garden center.
- Scoring criteria for the team preparation and presentation are on the Team Activity Rubric, which will be recorded by a judge.

INDIVIDUAL ACTIVITIES

Identification of plant materials and equipment (200 points)

Fifty specimens from the floriculture plant and equipment identification list will be displayed for participants to identify by technical and common names. A number will designate each specimen. Four points will be awarded for each specimen that is correctly identified. Each participant will be allowed 25 minutes to complete this phase of the event.

General Knowledge Examination (200 points)

Participants will answer 50 multiple choice questions to test all areas of the floriculture industry as reflected in the event objectives including flowers and material from the wholesaler and how they are handled, stored, and used in the flower shop; knowledge of floral design (arrangement) and marketing of floral products from the floral shop as well as participants' knowledge and understanding of basic biological and scientific principles of producing and marketing flowers, plants and foliage. Each participant will be allowed 50 minutes to complete the exam. Each answer has a value of four points.

Test questions will come from the last five years of available National Floriculture CDE Tests. Each year the latest test will be added and the oldest test removed from the pool of questions to be used. National exams can be accessed at FFA.org

Problem-Solving/Decision-Making (200 points)

Each participant will solve 10 problems related to the various aspects of the floriculture industry identified in the event objectives. Each problem will describe the situation or create the problem and list four possible solutions to the problem. The participant must decide on the best possible solution to the problem. All materials and information necessary to solve the problem will be available to the participant as he or she solves the problem. Each participant will be allowed 50 minutes to complete this phase of the event. Each correct solution has a value of 20 points.

Annual Practicums (200 points)

Each participant will complete two annual practicums:

- Floral arrangement
- Job interview
- Growing procedures

Floral Arrangement (100 points)

Make a \$55 retail priced floral arrangement in compliance with the scenario provided. (The \$55 cost will include tax as well as retail mark up for fresh and hard goods and be within fifty cents either way of the \$55.) The event superintendent will announce the type of arrangement during the team orientation meeting. Using the materials provided, participants will be allowed 20 minutes to complete their arrangements and itemized bills. The event assistant at the beginning of the practicum will provide participants with the retail price of the flowers and foliage that they will use in their arrangements. The participant will determine the total arrangement cost using the pricing form provided plus 20% labor on their design. Retail cost of flowers and foliage given to the participant will be determined after polling florists to determine their current retail prices on the flowers and foliage used in the event. Scoring criteria are presented on the Floral Arrangement Practicum scorecard, which will be recorded by a judge.

EXPLANATION OF FLORAL ARRANGEMENT TERMS

Design: Category interpretation: design follows objective/scenario given
Balance: Physical and visual
Creativity: Artistic inventiveness
Depth: Placement of materials at different levels throughout the arrangement
Focal Emphasis: Design has one area of design that attracts the eye to it
Line: Movement
Mechanics: Professional techniques and application
Scale: Proportion
Unity: Cohesiveness of design
Color: harmonious use of color

Job Interview (100 points)

Each participant will appear before an employer (judge) to interview for a position available in the employer's business. The event superintendent will announce specific information about the job for which the participant is applying at the team orientation meeting. Participants will be given two job descriptions, one with a greenhouse skills focus and one with a floral skills focus at the team orientation meeting along with application forms to complete. Participants will be allowed to choose the job they wish to interview for and blank applications prior to participating in the practicum. Participants will be expected to prepare their applications prior to participating in the practicum. Participants will be allowed for the interview. Ten minutes will be allowed for this practicum. Participants will be allowed five minutes to complete the interview and five minutes for judges to score the interview. Scoring criteria are presented on the Job Interview Practicum Rubric, which will be recorded by a judge.

Growing Procedures (100 points)

One of the three activities listed below will be demonstrated on an annual basis. Ten minutes will be allowed for this section including questions from the judges. Seven (7) minutes to complete the assigned task, 1 minute for judges' questions, and 2 minutes for judges scoring.

POTTING OF YOUNG PLANTS (PLUGS OR LINERS)

Participants will be asked to plant young plants in the pots provided. Each participant will be given a group of young plants from which to select their transplants from; an appropriate pot or pots; potting medium; and ID stake and a marking pencil. Scoring criteria are presented on the Potting of Young Plants Practicum Rubric, which will be recorded by a judge.

ASEXUAL PROPAGATION OF PLANTS

Each participant will be provided the parent plant materials and all other materials needed to propagate plants asexually. Using the available materials, participants will take cuttings from the plant before them and stick them in the correct media, best for rooting. Participants should sanitize all equipment and use it appropriately in a safe manner. Scoring criteria are presented on the Asexual Plant Propagation Rubric, which will be recorded by a judge.

PINCHING PLANTS

A plant will be placed before each participant. Participants will be judged on the procedures they follow in pinching the plant in compliance with the scenario provided. Scoring criteria are presented on the Pinching Plants Rubric, which will be recorded by a judge.

Rotational Practicums (75 Points)

In addition to the two annual practicums, ONE practicum will be selected from the list below for each noted year. <u>The three to be used will be identified by the event superintendent in the annual team orientation packet that is available prior to convention on the CDE webpage</u>.

Selling One-on-One

Each participant will assume the role of a sales person in a floriculture business (grower, florist shop, garden center, etc.) A customer (judge) with a specific need will approach the participant. The participant will help the customer meet his or her need by using sales skills. All supplies, information and the business setting in which the participant works will be provided. Ten minutes will be allowed for this practicum. Of the 10 minutes, participants will be allowed one minute to review the given scenario, five minutes for dialogue with the customer and completion of the sales form. Judges will be allowed four minutes to score the participant. Scoring criteria are presented on the selling One-on-One Practicum Rubric, which will be recorded by a judge.

Media Selling

Each participant will be asked to create or evaluate advertising from the following media sources:

- Newspaper/catalog ad
- Radio script
- Newsletter
- Brochure/flyer
- ●—Email

- Social media
- Facebook
- Twitter
- Video YouTube
- Web homepage

All information and materials needed to develop the advertisement will be provided. Up to Fifteen minutes will be allowed for this practicum depending on the task assigned. Scoring criteria are presented on the Media Selling Practicum Rubric, which will be recorded by a judge.

Each participant will make a \$35 retail priced mixed combination planter. All plant materials, growing media and containers will be provided. Twenty (20) minutes will be allowed for each participant to make their mixed combination planter and complete the itemized listing of costs. At the beginning of the practicum, the participant will be provided with the retail price of plants and other materials to be used in their mixed combination planter. The markup is built into the retail price. Selection of materials should be combined to create a floral display according to the acceptable retail practices, using appropriate elements and principles of design within the floral industry. Scoring criteria are presented on the Making a Mixed Combination Planter Rubric, which will be recorded by a judge.

* MAKE AND PACKAGE A CORSAGE (75 POINTS)

Each participant will make and package a \$25 retail priced corsage including 20% labor. The type of corsage and information about the corsage will be provided to the participants through a given scenario at the beginning of the practicum by the event assistant in charge. All plant and non-plant materials needed to construct and package the corsage will be provided. The selection of materials should be combined to create a floral display according to the acceptable retail purposes, using appropriate elements and principles of design. Each participant will be allowed 20 minutes to complete the construction of the corsage and complete an itemized listing of costs for the corsage constructed. Scoring criteria are presented on the Making and Packing a Corsage Rubric, which will be recorded by a judge.

***** IDENTIFYING AND CONTROLLING PLANT DISORDERS (75 POINTS)

Pest and disorder items may be presented as an intact specimen, photograph or preserved specimen (herbarium sheet, insect mount, etc.). Each specimen will be designated by a station number. The participant must identify the item and its classification (nutritional/environmental, insect/pest or disease). The participant must then determine the damage location as well as chemical and culture controls for the disorder. Each participant will identify 15 specimens total for this event.

No specimens or items may be touched or handled in any way. Fifteen (15) minutes will be allowed for this event. Refer to the Disorder Practicum Scorecard for additional details.

The plant disorders will come from the following list of disorders. **NUTRITIONAL AND ENVIRONMENTAL DISORDERS**

- Cold temperature (freeze)
- Cold water damage
- Ethylene damage
- Iron deficiency

DISEASES

- Botrytis Gray mold
- Damping-off
- Downy mildew
- Leaf spot (Black)
- Powdery mildew

INSECTS AND PESTS

- Aphids
- Fungus gnats
- Leaf miner
- Leafhopper
- Mealybugs
- Scale

- Insufficient water damage
- Nitrogen deficiency
- Phosphorus deficiency
 - Root rot
 - Rust
 - Stem rot
 - Tospovirus (INSV and TSWV)
 - Shore flies
 - Snails/Slugs
 - Spider mites
 - Thrips
 - Whiteflies

✤ HANDLING A HAZARDOUS SITUATION (75 POINTS)

Each participant will be presented with a hazardous situation that could develop in a floriculture business. The participant will be asked to explain how to resolve the problem. The participant will be evaluated on their understanding of the problem and procedures and practices followed in resolving the problem. Ten minutes will be allowed for this practicum. Scoring criteria are presented on the Hazardous Situation Rubric, which will be recorded by a judge.

Scoring

| Phase | Individual Points | Team Points |
|--|----------------------|----------------|
| Plant and Equipment Identification | 200 | 800 |
| General knowledge | 200 | 800 |
| Problem solving | 200 | 800 |
| Annual practicums - 100 points each * Floral arrangement <u>* Job interview</u> * Growing procedures | 200 | 800 |
| Rotational practicums – 1 selected * Selling * Make a Mixed Planter Combination * Make and Package a Corsage * Identifying/Controlling Plant Disorders * Handling a Hazardous Situation | 75 | 300 |
| Team activity | Φ | 800 |
| TOTAL | 875 | 3,500 |

TIEBREAKERS

Individual

If ties occur, the following events will be used in the listed order to determine award recipients:

- 1. Written exam
- 2:--Plant and equipment identification
- 3. Floral arrangement practicum
- 4. Growing procedures

Team

If ties occur, the following events will be used in the listed order to determine award recipients:

- 1.—Team activity
- 2.—Written exam
- 3. Plant and equipment identification
- 4. Total score for Floral Arrangement Practicum

Awards

Awards will be presented at an awards ceremony to individuals and/or teams based upon their rankings. Awards are sponsored by cooperating industry sponsors as a special project and/or by the general fund of the National FFA Foundation.

Floral Arrangement Practicum Rubric

100 POINTS

| Name | Member Number | Chapter/State | Team Number |
|------|---------------|---------------|-------------|
| | | | |

Judge Name

Judge's Signature

Date

| | Excellent | Good | Needs Improvement | Score |
|--|--|---|--|-------|
| Arrangement | 85 | | | |
| Category interpretation | 4-5 points Design follows given scenario within provided parameters and correlates to the appropriate style, shape and design | 2-3 points Design slightly followed given scenario but is somewhat lacking in appropriate style, shape, or design | 0-1 points Design does not follow given scenario and/or lacks in following the given style, shape, or design | |
| Balance | 7-10 points Design is both visually and physically balanced | 4 -6 points Design is slightly off balanced | 0–3 points Design is not balanced visually or physically | |
| | 7–10 points | 4–6 points | 0–3 points | |
| Creativity | Design expresses advanced creative ability and advanced design techniques | Design expresses some creative ability and minimal advanced design techniques | Design lacks creative ability and Demonstrates limited design techniques | |
| Depth | 7-10 points Placement of materials at different levels is evenly distributed throughout | 4-6 points Placement of materials are somewhat distributed evenly | 0-3 points Placement of items are not distributed evenly | |
| Color | 7-10 points Color is used evenly/harmoniously throughout | 4-6 points Color is used somewhat correctly | 0-3 points Color is not used correctly | |
| Focal emphasis | 7-10 points Design has one area of design that attracts the eye | 4-6 points Design somewhat has a clear focal point | 0-3 points Design does not have a clear focal point | |
| Line / Rhythm | 7-10 points Design has a clear sense of movement created visually by the placement of floral materials | 4-6 points Design has a somewhat clear sense of movement created visually by the placement of floral materials | 0-3 points Design has no clear sense of movement created visually by the placement of floral materials | |
| Mechanics | 7-10 points Techniques used to keep floral material secure and stable are hidden or done neatly | 4-6 points Techniques used to keep floral material secure and stable are somewhat hidden or done neatly | 0-3 points Techniques used to keep floral material secure and stable are not hidden or done neatly | |
| Scale / Proportion | 4-5 points Design is the correct size based on container given | 2-3 points Design is slightly out of proportion | 0-3 points Design is not in proportion with container given | |
| Unity | 4–5 points All principles of designs are present and executed well | 2-3 points Some principles of design are executed well | 0-1 points None or few principles of design are executed well | |
| | OF COSTS 15 | | | |
| Bill of Sale Completion | 4-5 points Bill of Sale is completed entirely with a complete list of all items used and totaled | 2-3 points Bill of Sale is not entirely complete or missing some items used in the design | 0-1 point Bill of Sale is missing a lot of detail and/or missing several items used in the design | |
| Individual Pricing and Quantity Used | 4–5 points All items used in the design are individually listed with correct individual price and quantity totally accurately | 2-3 points Some items added incorrectly, or quantity used listed incorrectly. | 0-1 point Significant number of items added or listed incorrectly | |
| Total Bill of Sale Pricing Accuracy | 4–5 points Overall bill is legible with labor calculated correctly, and total price is listed accurately within +/- \$0.50 of \$55.00 | 2-3 points Overall bill includes minor errors, includes parts that are difficult to read or final price slightly off target goal of \$55.00 | 0-1 points Overall bill includes major errors, difficult to read, or well off target goal of \$55.00. | |

| | Excellent 8–10 points | Good 4–7 points | Needs Improvement 0–3 points | | Membe r Score | |
| Selection of plant part to pinch | Followed given scenario to determine correct pinch | Some pinches were made in incorrect places on plant | Most all pinches were made on incorrect places | (x2) | | |
| Use of proper procedures in making pinches | Used proper tools and/or techniques in making pinches | Used some but not all proper tools and/or techniques in making pinches | Used few or not any of proper tools and/or techniques in making pinches | (x2) | | |
| Made proper pinches | Plant pinched correctly to get desired effect per instructions | Some pinches were too little or too much to get desired effect per instructions | Most or all of plant pinches would not allow the plant to reach desired effect per instructions | (x2) | | |
| Overall effect of making pinches | The plant will reach desired outcome after pinching, no damage to plant parts left after pinch, and pinches correctly done | The plant will have some difficulty achieving desired outcome, some plant parts left have damage, and some pinches not done correctly | The plant will not be able to achieve desired outcome, much damage to plant part left, and most pinches not done correctly | (x2) | | |
| Answered questions correctly | Answered questions correctly | Answered some questions correctly | Did not or incorrectly answered questions | (x2) | | |
| TOTAL SCORE (50 POSSIBLE POINTS) | | | | | | |

Potting of Young Plants Practicum Rubric

| Name | Member Number | Chapter/State | Team Number | |
|------------|-------------------|---------------|-------------|--|
| Judge Name | Judge's Signature | | Date | |

| | Excellent | Good | Needs Improvement | | Membe r Score |
|--|--|--|--|-------|------------------|
| Potting Process | | | | | |
| Selection of plugs or liners | 5–6 points Plugs/liners are uniform in size and shape, correct number selected based on pot size provided | 3–4 points Plugs/liners are somewhat uniform in size and shape, just slightly off in selecting the correct number | 0–2 points Plugs/liners are not uniform in size and shape, correct number not selected based on pot size provided | (x2) | |
| Proper planting depth | 5–6 points Hole is made prior to placing plant in soil, the entire root system is covered, leaving proper stem length visible | 3–6 points minor amount of roots are showing, planted slightly too deep | 0–2 points A large amount of roots are showing or plant stem is covered with soil | (x2) | |
| Labeling of plant/pot | 5–6 points Labeled with date planted, plant name, and cultivar | 3–4 points Labeled with some but not all information required | 0–2 points no label present or labeled with incorrect information | (x2) | |
| Correct growing medium level in pot | 5–6 points Growing media is filled to the inner lip of the pot, leaving enough room to water the plant | 3–4 points Growing media is filled slightly too high or too low | 0–2 points Growing media is left very low or completely fills up the pot | (x2) | |
| Plug or liner arrangement and angle | 5–6 points Plugs/Liners evenly spaced for pot size given and plugs/liners planted in upright position | 3–4 points plugs/liners planted slightly too close or too far apart, planting slightly tilting | 0–2 points Plugs/liners not spaced corrected and not planted upright | (x2) | |
| Firmness of growing medium | 5–6 points After planting, growing media is tapped/ pressed firmly around each plant leaving the plant upright | 3–4 points Growing media is left slightly loose or left slightly too firm restricting plant growth | 0–2 points Growing media is not firmed after planting or left entirely too firm restricting plant growth | (x2) | |
| General appearance (free from handling damage) | 5-6 points Final product presented to the judge with plants upright, pot clean, and in sellable condition | 3-4 points Final product presented to the judge in slightly sellable condition | 0-2 points Final product presented to judge in non-sellable condition | (x2) | |
| Response to questions | 5–6 points Answered questions correctly | 3–4 points Answered some questions correctly | 0–2 points Did not or incorrectly answered questions | (x2) | |
